Subject: RE: Forest Service - Felling Licence suspended

[REDACTED]

I have reviewed this file and spoke to Mr. [REDACTED] and also to his forester Sean McGinnis.

The felling licence that was issued for this site contained no conditions. As there were no conditions attached, there is currently no breach so I don't think there are substantive grounds to hold the suspension in this case. I recommend that the suspension that is currently in place on GFL20650 is lifted.

[REDACTED] could you add the following sentence to the short letter please:
[REDACTED] *plans to visit the site during the week commencing the 19th Nov 2018 and would like to meet you to discuss any outstanding works that are to be completed. He will contact you directly closer the time to discuss a day and time that is suitable for you.*

Thanks,

[REDACTED]
